

Asthma and COPD telehealth services

supporting country people with asthma, chronic bronchitis and emphysema

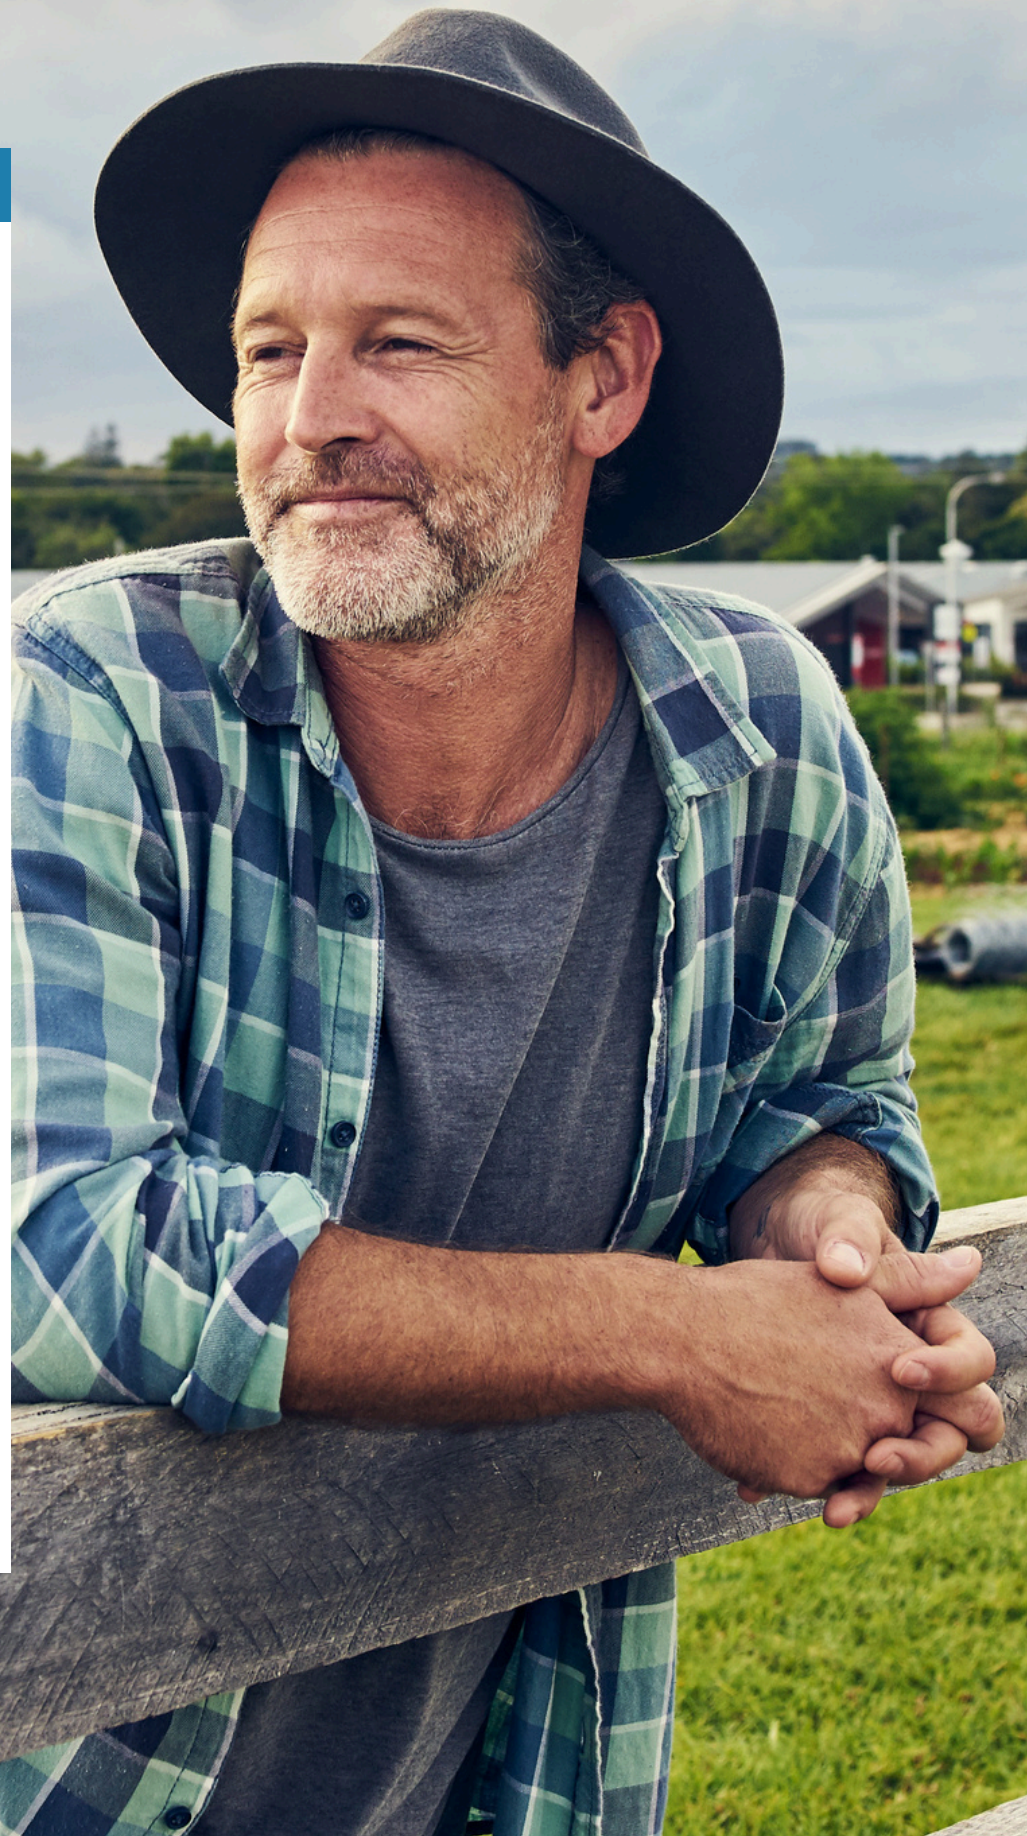

Respiratory Care WA

Asthma | COPD | Respiratory Health

Telehealth services conveniently provided through video conferencing at your local health centre or in your home.

We provide:

- Free education and ongoing support for people in country WA
- Advice on how to breathe more easily and feel better
- Tips on self-managing your condition, medications and devices
- Telehealth services for you in your home – no need to travel to appointments
