

This National Asthma Week, we're proud to support **Do Blue. Do You**, a statewide campaign raising awareness of asthma, a condition that affects **1 in 9 Australians**.

Going blue is a simple way to show your support, start important conversations, and help raise awareness of asthma across our community.

Together, we're helping make asthma visible and showing support for the thousands of Australians living with the condition every day.

Do Blue your way. Start the conversation. Make a difference.
#DoBlueDoYou

National Asthma Week
1 - 7 September 2026
